

## **Quality Policy Statement**

The policy of the Company is to achieve and maintain a level of workmanship and quality control which coupled with the ongoing investment in plant and equipment, provides the resources which will be a guarantee to all our customers that the products manufactured will meet their requirements for product specification, cost effectiveness and delivery.

It is the aim of the Company to enhance customer satisfaction by the effective application of the quality management system and that the services offered by Chelburn Precision Limited will meet the requirements laid down by the European and International Standard BS EN ISO EN 9001:2008 Quality Management Systems.

To this end it is essential that every member of staff, at all levels, should perform their tasks correctly and in accordance with the procedures detailed within the Quality Manual.

Subcontractors who supply materials and services will be monitored to ensure that they comply with the Company's quality requirements.

The Procedure Manual has been developed in order to define the processes that are used which contribute to the achievement of this goal.

The Manual is available to any member of staff who wishes to read it. Copies of the Manual, or sections thereof, will be issued to members of staff who need the procedures in order to carry out their tasks.

Any suggestions which may lead to an improvement in the quality of our products, or may assist towards our objective of continual improvement of the quality system should be passed directly to myself.

All personnel have the authority to work within the scope of their responsibilities.

**Mr. N. Travis.**  
**Managing Director.**
